The transition from an undergraduate to a higher research degree or professional employment is comparable in scale to the one from high school or college to university. Your Honours year is the main bridge across this gap. Honours thus serves as both the culmination of your undergraduate studies and a first taste of what to expect at the graduate level or in the workforce. For many students it means the last phase of university life before entry into full-time employment: the phase in which much of the disciplinary and interdisciplinary work done in the previous years begins to fall into place. In this phase, you are given much more autonomy and responsibility for your own intellectual development, especially in the preparation of your thesis. At the same time, you are getting better acquainted with some of the central features of academic life: seminars, workshops, presentation of work to colleagues, and of course the preparation of longer research essays or theses. To enable you to develop these social, professional and intellectual skills, the College has certain formal and informal expectations about the arrangements for your Honours year (or years, if part-time).

This guide will assist you in developing the essential skills necessary to maximise your Honours-year experience. We hope you enjoy your Honours year and delight in the joys of research!
WHAT IS HONOURS?

Introduction

Honours in the ANU College of Asia and the Pacific is a program that is recognised as a prestigious qualification, and is an effective path to gain entry into higher degree studies and employment. The program is undertaken over one year full-time. Part-time enrolment is possible with approval from the Supervisor and Honours Specialisation Convenor and is dependent on Supervisor availability. Students converting to part-time part way through the program is permitted in exceptional circumstances and at the discretion of the Associate Dean Student Experience. Maximum completion time is 2 years. The program involves completion of research and methods coursework and a research thesis, as set out below. There are two different Honours Specializations in CAP: Security Studies, and Asia-Pacific Studies, which form the honours year in a range of degrees.

Note: If you are a Bachelor of Philosophy student, this Honours guide applies only to the final 48 units of your program.

Asia-Pacific Studies Honours Specialisation

The Asia-Pacific Studies Honours Specialisation provides an opportunity for advanced independent research relating to Asia or the Pacific. As an Honours student, you will have access to the wealth of expertise in Asian and Pacific studies across the university and to the great holdings of the University and National libraries. You will have expert supervisory guidance and research training that will position you well for future employment or additional postgraduate study. The Asia-Pacific Studies Honours Specialisation will provide you with in-depth contextual knowledge, research skills, and the opportunity to build on your previous knowledge in a rigorous way.

Security Studies Honours Specialisation

The Security Studies Honours Specialisation provides specialist training in the international, internal, and transnational security challenges currently facing the Asia-Pacific region. As an Honours student, you will have access to the wealth of expertise in security studies across the university and to the great holding of the University and National libraries. You will have expert supervisory guidance and research training that will position you well for future employment or additional postgraduate study. The Security Studies Honours Specialisation will provide you with in-depth contextual knowledge, research skills, and the opportunity to build on your previous knowledge in a rigorous way.

4  ANU College of Asia & the Pacific
HELP & SUPPORT

Who's who?

A number of people will assist you in your studies and we recommend that you take the time to identify your Honours ‘community’, get to know the lines of communication and who you can turn to for guidance when you need it.

Other Honours students

You are a member of the cohort studying for Honours. You may already know some of the students; others you will come to know during the year. Each is different, as are their chosen topics. Your colleagues are among your most important resources, sharing the highs and lows of the year. In addition, they will often become part of your future social and professional networks.

Honours supervisors

Your supervisors are the most important contact people with whom to discuss your research. You are working with them, seeking their advice and guidance, while also seeking to become independent in your work. See below for further information relating to the supervisor-student relationship.

Honours Specialisation Convenor

The Honours Specialisation Convenor is responsible for academic oversight of the Honours specialisation. These include maintaining records of each student’s coursework and grades (with the assistance of the Honours administrator), advising students on College rules and policy, and arranging examination procedures for theses. The Honours Specialisation Convenor is also available to provide pastoral care, support and advice to all Honours students in that specialisation.

Honours Administrator

The College Student Advisors are the first point of contact for matters relating to process and procedure for enrolment and deferment, program leave, extensions, travel approval and other administrative matters. They are located in the CAP Student Centre, HC Coombs Building 9
Rm. 1105. T 02 6125 3207
E cap.student@anu.edu.au

Academic difficulties

The Academic Skills and Learning Centre (ASLC) offers ANU students free and confidential help with their academic work through individual consultations, workshops, courses, podcasts and handouts. Their aim is to assist students to develop the academic, critical thinking and communication strategies that are foundational to all scholarly activity. For ANU students, the ASLC offers individual consultations, workshops/courses and specialist programs.

Students who encounter academic difficulties should first attempt to discuss and resolve them with their supervisor. If this does not produce satisfactory results, they should then consult the Honours Convenor and then, if the matter remains unresolved, the students should make an appointment to see their Head of School.

Students experiencing personal problems are encouraged to utilize the University's student support services.

Access and Inclusion assists students who have a disability, medical condition or who are recognized primary carers of a person with a disability to participate fully in their program of study by providing advice, support and adjustments that minimise the impact of disability in education.
Visit the A&I website

Free and confidential counselling is available on campus for all currently enrolled students.
Visit the Counselling website
Supervisor–student relationship

All students in the Honours program have at least one supervisor.

This relationship involves obligations on the part of both parties. Your supervisor will assist you with advice, guidance and constructive criticism and help you to achieve your personal academic goals. The supervisor is there to help you choose and design the research project, guide the research in a practical and productive way, and advise you on writing the best thesis of which you are capable. At the same time, your supervisor can only guide your efforts if you produce drafts for them to read and are receptive to, and act upon his/her advice. You must take the responsibility for maintaining communication with your supervisor, meeting deadlines and the final results of your work. So that you will know what to expect of your supervisor and what your supervisor will expect of you, the following indicates some of the responsibilities entailed in student-supervisor relations.

Responsibilities of the supervisor

> Assist the student in selecting and defining the scope of a suitable thesis topic or problem; assist the student in devising a schedule for the year’s thesis work.

> Guide the student in the selection and application of appropriate data collection practices, field research methods, conceptual frameworks, and analysis procedures, and advise on the solution of any difficulties that arise.

> Advise on matters of thesis content, organisation and writing, including the timely provision of comments, written and oral, on drafts or portions of the thesis.

> Meet/communicate frequently with the student to discuss and evaluate each stage of the thesis project. Where there are joint supervisors, they should arrange joint meetings with the student.

> Monitor student progress and advise the student when progress is unsatisfactory.

> Advise students on gaining ethics clearance to conduct field work (see ‘Fieldwork & travel’).

> Nominate examiners for the thesis (the identity of thesis examiners must not be revealed to students).

Responsibilities of the student

> While preparing the application, to approach potential supervisors (normally College staff members) and ascertain their willingness to supervise a thesis on a mutually agreeable topic.

> Produce and deliver written material in accordance with the schedule agreed on with the supervisor.

> Consider advice seriously. If advice is not taken, the supervisor should be informed and given the reasons for the decision.

> Consult regularly with the supervisor. Students should prepare in advance for consultations, by determining the help they require and the areas in which advice would be useful.

> Take responsibility for their progress overall and to seek advice early if problems arise.

> Fulfil all the requirements of the Honours course.

> Where necessary, prepare an ethics submission and obtain approval for travel (see section below).

Difficulties in student-supervisor relations

Students experiencing difficulties in their relationship with their supervisor should endeavour to discuss this, in the first instance, with the supervisor. If it is not appropriate to hold such a discussion with their supervisor, they should consult the Honours Specialisation Convenor. If the difficulties between student and supervisor cannot be resolved to the mutual satisfaction of both, the student may request the Honours Specialization Convenor for permission to apply to another academic for supervision during the remainder of their candidature.

If the matter remains unresolved, the student should contact the College Associate Dean (Student Experience), or the ANU Dean of Students.

THE HONOURS THESIS

Expectations of the Honours thesis

The following guidelines are to assist students unfamiliar with what may be expected of an Honours thesis. It is highly recommended that you look at previous years' theses submitted to CAP (they can be located by contacting the CAP Student Centre) and you should discuss the following expectations with your supervisor:

> A thesis topic should be selected by the student and accepted for supervision by a member of staff as part of the application process for the Honours program.

> Generally, an Honours thesis is treated as the work of an undergraduate student and not as the work of an experienced researcher. Honours theses are not judged by the same criteria as Doctoral theses, or articles submitted to learned journals. They are seen as a student's first real opportunity to develop a range of research and communication skills and the ability to analyse a body of knowledge and thus demonstrate the potential to succeed in research at more advanced levels.

> Rather than being expected to make a 'significant' contribution to the field, Honours theses produced in the College are expected to display familiarity with their topic and effective disciplinary approaches to studying it. However, it is important to note that several Honours students in the history of the College have made significant contributions to their field and discipline, and shortened versions of their theses have been published in reputable journals. Thus, students who wish to finish in the 90-100 per cent range (see 'Grading bands and their meaning') and plan to do a PhD with a scholarship should aspire to make such a contribution.

> The thesis should demonstrate the ability to find and assess information and particularly to assess the relevance of arguments, theoretical concepts, and methods for your specific problem. This involves a grasp of relevant and accessible literature.

> Information should be presented logically and lucidly. Pretentiousness and jargon should be avoided, and comprehension should be clearly demonstrated.

> The thesis must be written in formal, scholarly English and demonstrate a high level of literacy. It must be carefully proof-read and presented in clean copies for examiners to read.

> The use of original sources in Asian languages is encouraged for all Asia-focused CAP Honours theses, and is expected for theses within the Bachelor of Asian Studies Honours program (BAS). BAS theses without the use of original sources in an Asian language require approval by the Asia-Pacific Specialization Honours convener and project supervisor prior to commencement. Note that this does not apply to students in other Honours Degree Programs, even if they are taking the same Asia-Pacific Honours Specialization.
Organisation of your thesis

The Honours year is an apprenticeship in the training of researchers, and the thesis represents your first major effort in independent research and writing.

Since Honours projects differ in type and content, there is no standard format for writing common to all theses. However, the following organisational requirements are essential:

Length

Word limit: The thesis must be maximum of 20,000 words in length, including footnotes, bibliography, tables and maps, but excluding appendices.

It is a good idea to discuss with your supervisor the length of your thesis as writing proceeds, seeking their advice on likely outcomes and ways and means of managing the length.

Thesis layout

> Title page: The first page should set out the title of the thesis, state the degree for which it is submitted at The Australian National University, your name, and the month and year of submission.

> Second page: A signed statement that this is your own work. For example, ‘Unless otherwise acknowledged in the text, this thesis represents the original research of the author’ or alternatively ‘This thesis is my own work. All sources used have been acknowledged.’

> Table of contents / figures / tables / plates.

> Abstract.

> Chapters numbered, and each beginning on a new page.

> Bibliography: The system of referencing can vary in the College, so you must check with your supervisor.

> Appendices.

Honours thesis format

The following guidelines have been adopted by the ANU College of Asia and the Pacific for the presentation of Honours theses:

> The thesis should be written in a clearly legible, size 12 font, and either 1.5 or double-spaced.

> Pages should be numbered consecutively.

> Margins:
  - Left hand 30mm
  - Right hand 20mm
  - Top 20mm
  - Bottom 30mm

> The thesis must be submitted electronically as a pdf document. The student should not submit a hard copy. The thesis is to be submitted electronically to the CAP Student Centre. The CAP Student Centre will prepare a hard copy of the thesis if requested by an examiner.

> The CAP Student Centre will send email confirmation of receipt of the thesis to the student. This, together with a copy of the thesis, should be retained by the student for their records.

Honours thesis submission

The due date for thesis submission in 2019 is 31 October.

All theses are submitted online through WATTLE. You will need to submit a word document for Turnitin to check for text matching

For information regarding Turnitin please visit the ANU Online website

For any other students due to complete their theses mid-year (e.g. part-time students), the due date is 31 May.
EXTENSIONS & PENALTIES

Coursework extensions
An extension of time for submission of coursework in the research training courses, ASIA4001 and STST4001, is granted at the discretion of the course convenor. An extension will be granted only in the event of unforeseen circumstances having prevented timely submission of work. Applications for extensions should be lodged as early as possible, and must be lodged before the due date of the work for which the extension is requested. Only in exceptional circumstances will applications be considered after the due date. Requests for extensions of time to submit coursework should be supported by medical or other documentation validating the grounds for the extension.

Thesis extensions
An extension of the deadline for thesis submission is granted only under exceptional circumstances at the discretion of the College Associate Dean (Student Experience). Students seeking an extension must fill out the 'Application for Extension of Time to Submit Honours Thesis' form and submit it to the CAP Student Centre. The form needs to be signed by both your supervisor and the Honours Specialisation Convenor. It should be accompanied by a letter from the student, setting out in detail his or her case for an extension.

Acceptable grounds for an extension of the deadline for thesis submission may include that you have:

> had a significant unforeseen and unavoidable escalation in your paid work hours.

Non-acceptable grounds for an extension of the deadline for thesis submission may include:

> a personal event, such as a wedding or a holiday, during your program of study

> that you are not a native speaker of English

> that you could do a better job if you had extra time in which to complete the work.

Applications for extensions should be lodged as early as possible, and must be lodged before the due date of the thesis. Only in exceptional circumstances will applications be considered after the due date.

In all cases, supporting documentation must be lodged along with the application.

If you consider that you have a case for an extension of time in which to submit a thesis on grounds that are not among those listed above, you should consult with the College Associate Dean (Student Experience).

Penalties for late submission of work
Written work worth more than ten per cent of the final result in any given course or seminar that is submitted after its designated submission date without an approved extension will have marks deducted at the rate of five per cent per working day. Note that this does not apply to the thesis – if you don't submit the thesis on time without acceptable grounds, it will be marked 'zero'.
FIELDWORK, ARCHIVAL RESEARCH & TRAVEL

Although fieldwork and in-country archival research certainly is not expected, much less required, of Honours students in the ANU College of Asia and the Pacific, some students choose to undertake primary and/or in-country field-based research.

All research involving human subjects (which includes online surveys and phone interviews, but not archival research) requires the approval of the University’s Human Research Ethics Committee and must comply with national guidelines, as enshrined in the National Health and Medical Research Council’s (NHMRC) National Statement on Ethical Conduct in Research Involving Humans (1999).

Please contact the Research Ethics Team, Research Services Division for further information: T 02 6125 4290 E human.ethics.officer@anu.edu.au

All travel undertaken for the Honours program, whether for fieldwork, archival research or another purpose, such as participation in a conference or consultation with scholars outside Canberra, requires the approval of the student’s supervisor and the Honours Specialisation Convenor.

When developing your research proposal and application for admission to Honours, be sure to discuss with your proposed supervisor whether travel and/or research in the archives or with human subjects is desirable, or necessary for your thesis. You should also discuss with them ethics issues and the time needed to apply for travel and ethics approval and carry out the proposed research in your research plan.

You must factor in the process of gaining approval for your research early in the development of your research project plan and incorporate the lead-time in the timetable for your Honours year. An ethics application should have been approved, at the very latest, one month prior to the date on which you plan to start the research. If you wish to conduct in-country field-based research toward your thesis, it is recommended that the research is completed no later than the middle of July (for full-time students).

Advice on ethics training and the approval process should be sought from the ANU Ethics Office prior to the development of your ethics protocol. Information about ethics training sessions and application processes are available on the Ethics and Integrity webpage.

All Honours travel is managed through the ANU Global Programs System, which can be found at https://anu-au-sa.terradotta.com. You will need to create an account the first time you use the system. Once you’ve created your account you can search for the CAP Honours Fieldwork and Funding Application under ‘Program Search’ and submit your application.

Honours students on approved fieldwork are eligible to receive the EngageAsia Travel Grant. EngageAsia travel grants are processed as part of your travel application. In addition, a travel handbook, including guidelines is available on the CAP Honours website.
ASSessment

Please be aware that assessment at Honours level is both formal and informal. That is, you will receive an indication of your level of achievement in coursework as you complete it and progress reports in the form of written or oral feedback on your thesis work during meetings with your supervisor. The final grade/Honours classification covering both coursework and thesis, as determined at a final examiner’s meeting, is published on ISIS at the completion of the assessment period.

Students are entitled to a copy of the examiners’ reports after assessment has been made and formal notice of results given.

The following advice will be given to the examiners of your thesis:

The learning outcomes for the thesis are as follows:

1. Upon successful completion of this course, students will have the knowledge and skills to:
   a. pose a significant research question relating to your field of studies;
   b. investigate this question creatively, critically, ethically, and independently, including through sophisticated use of appropriate theory and methodology as appropriate to the discipline in which they are situated, and place these investigations in the context of the relevant intellectual tradition; and
   c. communicate their research and its findings through an appropriate medium.

2. It is of utmost importance for a CAP Honours thesis to have an original argument. Purely narrative accounts without a substantial argument or thesis – even if based on well-researched empirical material – should not be marked in the First Class range.

3. CAP expects Honours theses to be written in high-quality, scholarly English. Frequent typographical and/or grammatical errors, as well as casual, non-scholarly forms of expression should lead to a reduced overall mark.

4. The maximum length of CAP Honours thesis is 20,000 words, including footnotes and bibliography but excluding appendices. Unless there have been special arrangements between CAP and the student, theses that are substantially longer than the prescribed word limit allows should be given a reduced assessment.

5. Examiners are expected to produce a mark and a signed report (approximately one to two pages in length) within two weeks of receiving the thesis. Delayed submission of the mark and report can have serious consequences for the student’s ability to graduate on time and be considered for possible awards and scholarships.

Sections 6-8 below are relevant to Bachelor of Asian Studies Honours only.

6. The use of original sources in Asian languages is encouraged for all Asia-focused CAP Honours theses, and is expected for Bachelor of Asian Studies theses unless an exemption has been granted. Examiners will be instructed to assess the quality, frequency, relevance and substantive understanding of these sources within the context of the overall theme of the thesis.

7. For theses which make use of sources in Asian languages, students are required to include bibliographic references to the documents in both the original language and in English translation. If the thesis relies significantly on certain key documents or texts in original Asian languages, students must quote from the original text and provide a translation, at least of key passages that are focused on in the thesis and are in a language that is taught at ANU. Examiners will be instructed to assess the quality, frequency, relevance and substantive understanding of these sources within the context of the overall theme of the thesis.

8. Theses may involve primarily translation of a text from an Asian language and a conceptual contextualisation of that text. In such cases, the translation may be placed as an appendix. However, examiners should still assess the way in which the translation and its interpretation are connected to wider scholarly debates.
# Grading Bands

<table>
<thead>
<tr>
<th>Grade</th>
<th>% value</th>
<th>Interpretation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Honours I</td>
<td>90–100</td>
<td>Work of exceptional quality demonstrating a high level of originality, and making a fundamental contribution to the field. There is very little the student could have done additionally or alternatively. The thesis suggests outstanding potential for future research work.</td>
</tr>
<tr>
<td></td>
<td>80–89</td>
<td>Work of exceptional quality showing a clear understanding of subject matter and appreciation of issues; well formulated; arguments sustained; relevant literature referenced; marked evidence of creative ability and originality; high level of intellectual work. The thesis suggests excellent potential for future research work.</td>
</tr>
<tr>
<td>Honours IIA</td>
<td>70–79</td>
<td>Work of good quality showing a strong grasp of subject matter and appreciation of dominant issues though not necessarily of the finer points; arguments clearly developed; relevant literature referenced; evidence of creative ability; solid intellectual work. The thesis suggests good potential for future research work.</td>
</tr>
<tr>
<td>Honours IIB</td>
<td>60–69</td>
<td>Work of solid quality showing competent understanding of subject matter and appreciation of main issues though possibly with some lapses and inadequacies; arguments clearly developed and supported by references though possibly with minor red herrings and loose ends; some evidence of creative ability; well prepared and presented. The thesis suggests limited potential for future research work.</td>
</tr>
<tr>
<td>Honours III</td>
<td>50–59</td>
<td>Range from a bare pass to a safe pass. Adequate, but lacking breadth and depth. Work generally has gaps. Frequently work of this grade takes a simple factual approach and does not attempt to interpret the findings. At the lower end, indicates a need for considerable effort to achieve improvement. The thesis suggests little potential for future research work.</td>
</tr>
<tr>
<td>Fail</td>
<td>&lt; 50</td>
<td>Unsatisfactory. This grade characterises work that shows a lack of understanding of the topic. Inadequate in degree of relevance and/or completeness. The thesis does not suggest any potential for future research work.</td>
</tr>
</tbody>
</table>
Administratively, Honours is a separate undergraduate program, taken after completion of a Pass Degree. The College's Honours programs begin at the start of each first semester. Mid-year entry is not available. Most students enter Honours directly on completion of their Pass Degree, or within a year of that event. Generally, the College does not accept applications from students who completed their Pass Degree more than two years before filing their Honours application, except in truly extraordinary circumstances.

The Honours year has rigid deadlines to test your organisational skills, ensure equity among candidates and facilitate the organisation of assessment and determination of results for the class. Please be aware that the University and the College have set a number of deadlines for enrolment variations and other processes. Make sure you are aware of the Census Dates for the year.

**Delay in commencement of Honours program**

If circumstances prevent you from commencing you Honours study as intended, you are able to withdraw from the Honours program no later than the semester Census Date, without your enrolment appearing on your academic transcript.

Once admitted to the Honours program, students are expected to commence in the semester for which they applied. In exceptional circumstances, deferment may be granted for one year, but there can be no more than two years’ break. Those who wish to defer must seek written approval from the Honours Specialisation Convenor as well as their nominated supervisor.

Students should then apply for deferment for either one or two semesters, but there can be no more than two years’ break. To defer, you must submit an ‘Application for Deferment’ form with the written approval of the Convenor to the College Student Office. Students commencing study after a period of leave must advise the College Student Office in writing (email) of their intention to enrol.
**Part-time Honours**

A student who is enrolled part-time is given more time than a full-time student to complete the Honours program (three semesters instead of two). Part-time enrolment in Honours is not an automatic option, but is granted at the discretion of the Associate Dean (Student Experience). This is true whether the student is newly entering the Honours program, or has already commenced studies and wants to convert from full-time to part-time status. Students who wish to convert to part-time should contact the CAP Student Centre for advice before the semester Census Date. You will need the approval of your Supervisor and the Honours Specialisation Convenor. You will also need to provide details of your case for part-time status.

Acceptable grounds for part-time enrolment may include that the student:

- is undertaking full-time (minimum 35 hours/week) paid work
- has significant other responsibilities (e.g. caring for a seriously ill parent, spouse or child)
- has a significant ongoing health problem or disability, which prevents full-time work at his or her studies.

Non-acceptable grounds for part-time enrolment include that the student:

- is undertaking part-time paid work
- wants to take more time over his or her Honours studies.

In all cases, supporting documents (e.g. medical certificates or a statement from an employer confirming ongoing fulltime employment) must be lodged along with the application.

Students who consider that they have a case for part-time enrolment on grounds that are not among those listed above are encouraged to consult with the College Associate Dean (Student Experience) as soon as possible.

**Program Leave**

Once a student has commenced his or her Honours program, Program Leave is permitted only under exceptional circumstances and is granted at the discretion of the College Associate Dean (Student Experience). The maximum leave available is one year. If granted Program Leave, full-time students must complete their Honours year within two years of enrolment and part-time students within three years of enrolment.

To apply for Program Leave you must fill out an 'Application for Leave' form and lodge it at the CAP Student Centre before the semester Census Date. The form needs to be signed by the Honours Specialisation Convenor. It should be accompanied by a letter, setting out in detail your case for Program Leave.

Acceptable grounds for Program Leave may include that the student:

- has developed a serious health problem that makes it difficult for him or her to study
- has had an occurrence of major unforeseen misfortune (e.g. death or serious illness of an immediate family member, or the need to assume significant caring responsibilities for a family member) is making it difficult for the student to study.

Non-acceptable grounds for Program Leave include that the student:

- wants to take a year off in order to broaden his or her horizons
- has a short-term illness (in this case you are advised to apply for an extension).

In all cases, supporting documentation must be lodged along with the application.

Students who consider that they have a case for Program Leave on grounds that are not among those listed above should be encouraged to consult with the College Associate Dean (Student Experience) as soon as possible.
INTELLECTUAL PROPERTY & STUDENT ACADEMIC INTEGRITY

**Intellectual property**

All students need to be aware of ANU policies and procedures surrounding intellectual property. You should be familiar with the following documents:

- **Policy: Intellectual Property**
- **Procedure: Student Intellectual Property**
- **Procedure: IP protection and commercialization**

**Student academic integrity**

The ANU College of Asia and the Pacific is committed to upholding the principle of academic honesty. Students should develop the ability to think independently and to express themselves clearly and cogently in their own words.

The University’s policy and other important information and advice can be found on the University’s ‘[Academic Honesty and Plagiarism](#)’ page.

All students must familiarise themselves with this material.

The Academic Skills and Learning Centre is also available to help students who need assistance with academic writing.
