Asia & the Pacific

# WELCOME

Welcome to Australia 360, the nation's only in-depth annual stocktake and forecast of international policy.

Since the Australian National University was founded in the aftermath of the Second World War, we have been committed to understanding and engaging with our region and driving positive change.

Here, at the Coral Bell School of Asia Pacific Affairs we are proud to have a long tradition of research excellence and policy engagement in international politics.

We are proud to be a dynamic academic hub of influential thinkers and revolutionaries, such as Dr Coral Bell. She left a legacy for scholars to make a lasting impact in the world.

In many ways, Australia 360 is an expression of Dr Bell's commitment and passion for excellence in foreign policy.

As the world becomes increasingly volatile, we all have a role to play in understanding our complex global landscape and Australia's position in it.

We have a responsibility to understand the critical challenges facing our region and consider the policy solutions needed for a stable future in the Asia Pacific.

I encourage you to engage with speakers, build connections, and challenge your ideas and the ideas of others. Most importantly, I hope this year's Australia 360 brings you renewed energy to lead us towards security in the world.

A handwritten signature in black ink that reads "Brendan K Taylor". The signature is stylized and written over a horizontal line.
