Learning from Fukushima: Nuclear Power in East Asia

Monday 23 October 2017, 5:30pm–7pm

Edited by
Dr Peter Van Ness
The Australian National University

Professor Mel Gurtov
Portland State University

Launched by
Professor Tessa Morris-Suzuki
Laureate Fellow, School of Culture History and Language, The Australian National University

Location
Atrium, Hedley Bull Building
130 Garran Road, Acton ANU

Registration
W http://bit.ly/2kwNs6W
T 02 6125 8533

This is a free event open to the public

Copies of the book will be available to purchase and to be signed

Please join us for light refreshments after the launch

Learning from Fukushima began as a project to respond in a helpful way to the March 2011 triple disaster (earthquake, tsunami, and nuclear meltdown) in north-eastern Japan. It evolved into a collaborative and comprehensive investigation of whether nuclear power was a realistic energy option for East Asia, especially for the 10 member-countries of ASEAN, none of which currently has an operational nuclear power plant. We address all the questions that a country must ask in considering the possibility of nuclear power, including cost of construction, staffing, regulation and liability, decommissioning, disposal of nuclear waste, and the impact on climate change. The authors are physicists, engineers, biologists, a public health physician, and international relations specialists.

Each author presents the results of their work.

Andrew Blakers, Mely Caballero-Anthony, Gloria Kuang-Jung Hsu, Amy King, Doug Koplow, Anders P. Møller, Timothy A. Mousseau, M. V. Ramana, Lauren Richardson, Kalman A. Robertson, Tilman A. Ruff, Christina Stuart, Tatsujiro Suzuki, Julius Cesar I. Trajano

Peter Van Ness is a Visiting Fellow in the Department of International Relations, The Australian National University.

Mel Gurtov is Professor Emeritus of Political Science at Portland State University, Oregon.
